Homework 4
100 Points

Making Decisions

Assignments:

1. Rewrite code using proper indentation and spacing: **Hw4_A.cpp**
2. Find and fix errors: **Hw4_B.cpp**
3. Mobile Service Provider (Chapter 4, Project 25):
     Run the program 7 times using the following input:
     1. A 400
     2. A 700
     3. B 825
     4. B 1001
     5. C
     6. A -129 // error
     7. D // error!

   Display clear error messages, showing what was wrong.
   NOTE: Do not forget to define and use named constants.

Run each program as required and save the output at the end of the source file as a comment. Compress the source files and upload the compressed file:
22A_LastName_FirstName_H4.zip

Grading
Hw4_A.cpp. – 20 Points   // Indentation and Spacing
Hw4_B.cpp. – 20 Points
Hw4_C.cpp. – 60 Points   // Project "Mobile Service Provider "
